The Senate finance committee decided to provide in the war tax bill to raise \$80,000,000 by consumption taxes of 2c a pound on coffee, 5c on tea, 1-2c on sugar and 3c on cocoa.

Mrs. Mriah Carnahan, mother of Mrs. James Kincaid, of Catlettsburg, was found dead in her chair. Mrs. Kincaid had left her room only a short time before. She was past 80 years old.

Tornadoes in Missouri and Southern Illinois Wednesday caused the death of at least ten persons and the injury of fifty or more, according to advices from the various communities over which the storm passed.

Warren county is handling the biggest strawberry crop in her history. Three thousand acres of land are producing berries this year, and up to the present time the Warren County Strawberry Association has shipped more than 300 cars of berries to Eastern and Middle Western markets. The demand for berries continues greater than the supply, and for the past few days the berries have been sold at \$3 per crate before delivery at the shipping stations.

FOUND DEAD IN BED

Judge R. A. Burnside, one of the best known men of Garrard county, as well as one of its very best citizens, was found dead in his bed at Silver Creek Thursday morning. A number of years ago Judge Burnside suffered a paralytic stroke and it is supposed that "another followed. Deceased was 70 years old and is survived by the following children: Mrs. Wm. Lackey, of Lancaster, Joe Burnside, circuit clerk of Garrard, Mrs. Bertha Landrum, of Harlan, Mrs. Bettie Walker Watson, of Barbourville, Mrs. Mary Metcalf and Richard Burdise, of Nashville, Kansas, J. T. Burnside, of Benham. His wife, who was a daughter of the late Gen. W. J. Landrum, died a number of years ago. Judge Burnside had been a revenue officer for years and was in that work when the end so suddenly came. The funeral services will be conducted at the home of Mrs. Wm. Lackey Saturday morning at 10 o'clock followed by interment in the Lancaster cemetery.

MARRIAGES

Miss Elizabeth Hodgkin and Benjamin T. Prewitt, well known young people of Winchester, went to Lexington in Mr. Prewitt's auto and were married by Rev. I. J. Spencer. Jasper Case, of the Hubble section, and Miss Pearl Shearer, of Garrard, were married at Lancaster Thursday. The groom, who is a prominent young farmer, is a son of William Case, and his bride is the pretty and popular daughter of Bud Shearer. Rev. Hoffman, of the Hubble church, performed the ceremony.

FISH BY THE THOUSAND

Deputy Game Warden Samuel J. Embry and assistants have been doing some lively fishing this week. Out of the pond on Mr. Forestus Reid's place they took about 300 pounds of carp, some weighing as much as a dozen pounds. A seine was used and the fish were given to those who would take them. The mud carp is not considered a delicacy and hence the fish went begging. It was Mr. Reid's desire that the carp be taken from the pond in order that newlights might have a better chance to multiply, so the State Game and Fish Commission sent a car by Stanford and Superintendent Hill, who was in charge, assisted Mr. Embry in the work of getting the fish. Superintendent Hill and Mr. Embry also seized several ponds in this section for newlights with which to stock Dix river and other streams. They got about 4,000, 300 of which were put in the water works lake and several hundred in the lake at Crab Orchard Springs. Some 1,500 were taken to Rockcastle river and Roundstone creek.

NEGRO GETS APPOINTMENT

J. D. M. Russell, for the past seventeen years principal of the Richmond negro high school, has been appointed by President Wilson as postmaster of Wilberforce, O. Russell has been a life long Democrat. When Senator Pomerene, of Ohio, was asked for recommendation for postmaster of Wilberforce, a negro college town, he was unable to find a negro there of Democratic persuasion who was qualified for the place. Russell, however, owns a tract of land in Wilberforce. The place pays \$1,800 a year and is practically a lifetime job, now that presidential post-offices go under civil service. Russell has two brothers who are educators, one being president of the Colored State Normal School, at Frankfort, and the other at the head of the negro schools at Nicholasville.

POWELL TO SUPERINTEND JOB

The trustees of the Hustonville Graded School showed judgment and anagosity when they engaged Mr. J. R. Powell, of this city, to superintend the erection of the big school building they are to build at Hustonville. A number of contractors put in bids on the building but it was unanimously decided that the trustees would get Mr. Powell to take charge and that they would give him all the assistance possible. Our townsman is a good man for the job and our Hustonville friends can rest assured that the school's interests will be well cared for by him. It was he who looked after the county's affairs in the erection of our good courthouse, and the members of the fiscal court showed good judgment when they secured his services.

MRS. MOLLIE MURPHY DEAD

Mrs. Mollie Murphy, widow of T. F. Murphy, died at her late home near Chilton, Casey county, after a long illness of tuberculosis, aged 38. She had long been a consistent member of the Rocky Ford Baptist church and was one of the very best women of her section. Two children, Mrs. R. E. Taylor and Charles Murphy, survive.

BORING FOR OIL

John L. Tanner, who was here from McKinney Thursday told the I. J. that boring for oil is in progress some two miles from McKinney. A depth less than 100 feet has been reached so far. A great deal of limestone rock has been encountered, and the company drilling is very sanguine of striking oil.

Speer, banking commissioner, had for his subject, "Interest on Deposits." Mr. P. R. Bernd, of Shelbyville, was chosen president of Group Eight and Mr. J. L. Gaugh, of Wilmore, was chosen secretary. Hon. J. M. Robison, of Barbourville, was chosen president of Group Eleven and Mr. F. L. Thompson, of Mt. Vernon, was chosen secretary. The Stanford bankers and directors who attended the meeting are loud in their praise of the treatment accorded them at Danville and say the meeting was one of the very best held so far.

FATHER AND SON UNDER BOND

On a peace warrant sworn out by Jesse Brock, who was shot from ambush back of Crab Orchard a week ago, Sheriff Weatherford and deputies arrested Landon Hopkins and son, John L. Hopkins, Tuesday afternoon and brought them to Stanford, where they gave bond in the sum of \$200 each. It will be remembered that Jesse Brock and his brother, Green Brock, were shot as they were coming to Crab Orchard, where the latter was to have his wounds dressed by Dr. W. J. Edmiston. Jesse Brock had been wounded a couple of weeks before by John L. Hopkins.

THURSDAY NEXT FLAG DAY

The big flag which was bought by Lincoln county some time ago, will be raised with appropriate ceremonies Thursday, June 7th, when Col. Colston, who soon will see service in France, will be one of the speakers. Col. Colston is the head of the First Kentucky Regiment and is not only a gallant soldier but a most interesting speaker. The First Regiment Band, one of the best in the country, will accompany him here and will discourse the sweetest of music. Besides Col. Colston and the great band, there will be other attractions, for Hon. Edwin P. Morrow, of Somerset, a born orator and a magnetic speaker, will be here, as will our circuit judge, Hon. Charles A. Hardin. Other speakers may be added to the list. It is the intention of Stanford people to make the occasion a memorable one and they want it understood that every man, woman and child is invited and expected here on that date. Thirty-five or 40 of Stanford's business men have agreed to stand all expenses, such as paying the railroad fare of the band and the entertainment here of the band men and the speakers, advertising, etc. Their willingness to do this was evidenced this morning when the guarantors were secured in a few minutes. It will be a big day and one to be remembered. It is fitting that we should give of our time and means to such an occasion, when the young men about us are being called upon to give their lives for their country. Let every end of the county, and other counties, as well, join in the effort to make it the biggest day Stanford has had in a decade, and by our deeds show the world that we love the flag and will stick to it whatever the tide. Remember the day and date. Come and see that all of your friends and neighbors do likewise.

HUSBAND FOLLOWS WIFE

Less than two weeks ago Mrs. William Winter Wright crossed the great river and now her husband, to whom she had been married nearly a half century, has followed her to the great beyond. Mr. Wright died at his late home four miles south of Hustonville, on the Liberty pike, last night, and the remains will be laid to rest by the side of those of his wife in the Hustonville Cemetery after remarks at the grave by Rev. A. H. Baugh, of the Hustonville Christian church at 3 o'clock Saturday afternoon. Mr. Wright was born on Oct. 12, 1833 at Brighton, England, and came with his wife to this country some 40 years ago. They were both excellent citizens and raised a family of five children, who have followed in the footsteps of their parents. Deceased had been in very feeble health for a long time and his death was not unexpected.

LATEST WAR NEWS

French troops, counter attacking heavily against positions northeast of Mont Haut, where Wednesday night the Germans had captured a trench, drove out the Teutons yesterday and re-established their former front in its entirety.

Another Entente hospital ship has been sunk by a Teutonic allied submarine. In the Mediterranean the British hospital ship, Dover Castle, carrying sick and wounded, was the target of two torpedoes, the first being launched without warning. Fortunately all on board except six men of the crew were saved. A submarine also has accounted for the British armed mercantile cruiser Hilary, which was sunk in the North Sea with a loss of four men killed by the explosion.

The weekly report of British vessels sunk by submarines or mines shows that eighteen vessels of over 1,600 tons—the same number as recorded the previous week—went to the bottom, but that only one vessel of less than 1,600 tons met with disaster, a decrease of eight over the record of the previous week.

CHAUTAUQUA A BIG SUCCESS

The Chautauqua of 1917 is now a memory and a very pleasing one it is. It came to an end last night with the biggest and most enthusiastic crowd of the season. The Woman's Club, under whose auspices the Lincoln Chautauqua came, made a small amount of money, but that is of little consequence as compared with the genuine pleasure the wholesome entertainments afforded. A rising vote of thanks is due the good women who labored so hard to make the Chautauqua a financial success. It was a work of love with them, for every dollar gotten from the enterprise will be expended for the betterment of Stanford. It will be good news to many that the Lincoln Chautauqua will return next year with the promise of even a better program. A considerable number of season tickets for 1918 have already been sold and promises are out for more. Some 30 of Stanford's business men guaranteed the Woman's Club against loss, as was done both this year and last. The closing attractions of the big five-day treat were the Alpine Yodlers and Dr. Ira Landreth. The Yodlers had the first place on the program and greatly pleased the immense throng. There are eight members of the Club and they are all full of music and know how to entertain. Dr. Landreth, who ran for vice-president on the prohibition ticket last year, for years was at the head of Ward-Belmont College in Nashville, and is a famous Presbyterian preacher, delivered a great lecture from the subject: "The Solid South for National Defense." He said many good things and no speaker who has been to Stanford in years was given closer attention or received more liberal applause. The writer enjoyed the lecture to the fullest and heartily agrees with the distinguished gentleman on the whisky question, but whether or not his prohibition lecture is in keeping with the usual Chautauqua attractions, he is not certain. Suffice it to say that it was a terrific arraignment of the whisky traffic and had it come from the pulpit or the rostrum, where politicians hold sway, it might not have done as much good, but certainly it would have been less surprising. The "Pageant" on Wednesday night, in which more than a hundred Stanford children took part, was very interesting and beautiful. Mr. Arthur Kachel, as an interpreter of drama, was fine, while the Cook-Weller Co., in song, instrumental music and cartoon work, more than pleased all who heard them. Brooks' great concert band made the sweetest music Tuesday afternoon and evening and Miss Helen B. Paulson's talk from the subject: "If We Only Knew," was greatly enjoyed. In fine, the Chautauqua was good all the way through and the only regret about it is, that it is all over and that we have got to wait another long year before we can have another.

NOTED LECTURER COMING

The next good thing in store for the people of Stanford and vicinity, is a lecture by Dr. Carolyn Geiszel, "She is the most knowing woman in America." She needs no introduction to the people of Stanford other than she has traveled over most of the continent in company with Dr. Ira Landreth and he paid her the high compliment of being the best lecturer in their crowd and the people of Stanford know what he is capable of doing. This lecture is free, so you see while it costs so much to feed the stomach you can sometime, at least, feed the mind on wholesome food free. The place and date will be announced in next issue.

A BUCKWHEAT SECTION

The part of Lincoln county bordering on Pulaski, South of Waynesburg, is the greatest buckwheat section of the State. In that section of Lincoln and Pulaski last year 70,000 bushels of buckwheat was grown, or more than was produced in the balance of the State of Kentucky. As the price jumped from fifty cents per bushel to nearly \$1.50, it will be seen what good judgment the farmers of that particular section have used.

MASONIC CELEBRATION

Sid Duke, the big-hearted coal and lumber dealer of Crab Orchard, offers lime for all who will whitewash for the Masonic celebration to be held at Crab Orchard Springs June 23rd. Mr. Duke wants the town to look its best and hence makes the liberal offer. It will take some time to do the job, but "Sid" will stick to his promise.

W. A. Harney has sold the pool room and restaurant on Depot street to Matt Martin, who will continue the business at the old stand.

NEARLY \$75,000 SUBSCRIBED

At a meeting of the bankers of Lincoln county at the court-house this afternoon nearly \$75,000 of the \$100,000 of Liberty Loan Bonds, the amount allotted to Lincoln county, were subscribed and the eight banks of the county obligated themselves to take the rest. It was an enthusiastic and patriotic meeting, at which many of our wealthiest and most influential men were present. Mr. J. S. Hocker, president of the First National Bank, of this city, chairman of the county committee for taking care of the Liberty Loan Bonds, was by virtue of his office, chairman of the meeting, and he made an excellent talk, telling its object and giving in an interesting way the value of the bonds that are to pay the way of our war against the Kaiser. Mr. W. M. Bright, cashier of the Lincoln National Bank, was made secretary. Hon. W. H. Shanks, Mr. Bright, Dr. Alcorn, H. G. Skiles, P. M. McRoberts and others spoke for the disposal of the bonds and gave many good reasons why they should all be subscribed for. Mr. Bright suggested that his bank would buy bonds for those who did not have all the money at hand and would let them pay for them on the installment plan. Mr. Skiles and others of the bankers said they are perfectly willing to do the same thing. The speakers all agreed that if the war continues for several years longer, the rate of interest would increase and that the bonds would prove an excellent investment. They bear 3 1-2 per cent. interest now, are non-taxable and if other bonds bear a higher rate of interest, these will automatically increase. It was suggested that each banker do all in his power to float the bonds, but that the territory of the other bankers would not be infringed upon. It was unanimously decided that an advertisement be taken in this paper to tell of the value and advantage of the bonds as an investment and the patriotic duty involved by the people to buy them. A committee composed of the cashiers of the various banks was selected to prepare the advertisements. The bankers agreed to keep in close touch concerning the disposition of the bonds and to help each other in every way possible. Many of the bankers think that far above the requisite \$100,000 can be disposed of and it was the earnest pledge of each person present that every bond that could be sold would be. It was moved and carried that each bank represented take a block of the bonds and these banks responded as follows: First National Bank of Stanford, \$20,500; Lincoln County National Bank, of Stanford, \$20,000; Lincoln Trust Co., of Stanford, \$5,000; Crab Orchard Banking Co., \$3,500; National Bank of Hustonville, \$11,000; Deposit Bank of Moreland, \$3,500; Peoples Bank of Hustonville, \$7,000. The McKinney Deposit Bank and the Waynesburg Deposit Bank were the only institutions of the county that were not represented. It was moved and carried that a meeting be held on county court day, next, at 11:00 a. m., for the purpose of disposing of the bonds and a number of speakers will address that meeting, including Mr. J. S. Hocker, who has thoroughly familiarized himself concerning the bonds. It was the unanimous consent of the bankers that they have annual meetings in the future and plans were laid for the next meet. The bankers of Lincoln county are all vying with each other in every thing that is helpful to the community and they are as one man in their effort to place the Liberty Loan Bonds, and that they will do so in a strong and effectual way, is a foregone conclusion.

Following is a list of those who partook of an excellent dinner at the Princess. They were the guests of the First National Bank and the Lincoln County National Bank, of this city: J. S. Hocker, W. M. Bright, Charles Wilhoit, J. B. Paxton, M. S. Baughman, J. C. Eubanks, W. E. Varnon, B. B. King, J. H. Yowell, H. C. Baughman, S. T. Harris, W. M. Myers, J. W. Hoskins, J. H. Wright, Walter W. Saunders, W. H. Shanks, P. M. McRoberts, Dr. Edward Alcorn, J. H. Hocker, J. P. Bailey, John B. Riffe, W. A. Tribble, H. G. George W. Carter, K. S. Alcorn, E. C. Walton.

WHY SUFFER WITH BACKACHE, KIDNEYS OR RHEUMATISM NOW?

Letter Tells of Long Looked-for Prescription.
Dear Readers—I am making a personal appeal to those of you who are bothered with kidney and bladder troubles, that you give up the use of harsh salts or alcoholic kidney medicines and in their place take a short treatment of "Amurle." I have taken many of Dr. Pierce's medicines for the past twenty-five years with good results. I suffered with kidney trouble for some years. I recently heard of the newest discovery of Doctor Pierce, namely, his "Amurle" Kidney Tablets. After using same I am completely cured of my kidney trouble. I recommend heartily, all sufferers to Dr. Pierce, for what he has done for me cannot be estimated too highly. A doctor pronounced me a well preserved woman for my age, all due, I believe, to Dr. Pierce's medical aid.

Yours very truly,
MRS. MELINDA MILLER.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists at Dr. Pierce's Invalid Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Amurle" has not been on sale to the public, but the persuasion of many patients, Doctor Pierce has finally decided to put it in the drug stores of this country within immediate reach of all sufferers, or send 10 cents for large trial package and free book for "Amurle." Simply ask for Doctor Pierce's Amurle Tablets. There can be no imitation. Every package of "Amurle" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the over-famous friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic and reconstructer for any one.

PRECEPT AND PRACTICE

The government is preaching conservation and economy to the people, and should set example. The bill to pay raw recruits a hundred dollars a month while in training would be an act of riotous extravagance, if passed. It should not pass. The failure to put into effect rigid prohibition measures forbidding the use of grain by distilleries is another gap which has not been covered, and the government has the authority to cover it. The government should be consistent. England has made the great mistake of permitting the use of grain for the making of drink, and now England is on the verge of grain famine. Is the United States going to make the same mistake?

Rheumatism Should Be Nipped In The Bud

Rheumatism in its early stages may delude you into believing that it is a disease of a purely local and temporary nature. Beyond a slight numbness of the limbs and pains in the joints or back, there may be no outward indications of it, but if you do not heed these warnings, or if you rely upon liniments to cure you, it will grow rapidly worse until you have Rheumatism in its most violent form. These symptoms, mild in the beginning but growing steadily worse, indicate that your blood is impregnated

Endurance—the Supreme Tire Quality

United States Tires have proved that they have that supreme quality,

—that miles are packed into their structure the way endurance is packed into steel.

A vast number of the motoring public know that by experience,

—and they have answered in the only way that the buying public can answer,

—by giving United States Tires tremendous sales increases,

—sales increases that are vastly greater than even the sensational increase in the number of automobiles this year over last.

GREAT RULERS ASSASSINATED

Four of the greatest men that ever graced the presidential chair were namely, Lincoln, Garfield, McKinley and Wilson. All of these God-fearing men loved peace, and three of them were martyred on account of the love that they had for their country and fellowmen. In other words they were for the common people.

Two of our presidents, Lincoln and McKinley, were rushed into two cruel, unjust wars, against their more mature judgment by hot-headed agitators, including senators and congressmen—wars that caused a great deal of unnecessary and innocent blood shed. It seems in these two cases, "Whom the Lord loveth He chasteneth."

President Wilson has proven himself to be a peace maker, since he has held his exalted position, and has not soiled on easy seas altogether. It appears that he has more than his share of trouble to endure and contend with. In these trying times there have been wars and rumors of war.

The good law-abiding and patriotic people should stand by him and sympathize with him in the dark hours of his unavoidable troubles, and give him every assurance of their sympathy and confidence. Will G. McKinney in Montgomery, Ala., Journal.

A Villa band captured Ojinaga, opposite the port of Presideo, Tex., annihilating the garrison defending it.

HARRY FARMER PLEASED

In remitting for his I. J. for another year, Harry W. Farmer, of whom Lincoln county is proud, writes as follows from Fort Benjamin Harrison, Ind. He is in Company 14, 9th Division: We are having a fine time up here when the weather is not too bad. We get about sixteen hours of work each day except Sunday, but it is so arranged in short periods that it never becomes monotonous. The food is not fancy but it is well cooked and clean and we always have plenty of it. It never tastes badly after a good day's work. Some few men have grown tired and left but the officers are glad of it, because such men will never make officers any way. This is an experience that every young man can appreciate when he has gone through it.

A THOUGHTFUL SON

Pattie Higgins, colored, called in Tuesday to tell the Interior Journal of the thoughtfulness of her son, Spencer Higgins, who has a good position in Indianapolis. She had just received money from him to buy flowers with which to decorate his father, Spencer Higgins' grave, and was very proud of it. She said: "He is the best boy in the world and never forgets his mother or his dead father. He frequently sends me money and never forgets my birthday."

The English Board of Trade has requisitioned and taken control of all manufactured and unmanufactured tobacco.

DOINGS THE COUNTRY OVER

S. E. Burroughs, Republican, was elected as Representative from New Hampshire to succeed the late Cyrus A. Salloway.

William J. Lampton, the poet and author, is dead in New York. He started his successful career as a newspaper reporter in Louisville.

Rev. William Stanley and wife, the aged parents of Gov. A. O. Stanley, were both severely hurt in a wreck on the L. & N. railroad near Henderson.

Two trainmen were instantly killed, another died of his injuries and the fourth was badly injured as a result of a head-on collision of freight trains on the Henderson Route, near Henderson.

The L. & N. railroad has granted all its shopmen a substantial increase in wages and an eight-hour day. Time and a half is granted for overtime. The new wage became effective May 1.

One of the first aims of the food administration will be to reduce prices of food. The system to be followed will be in the elimination of the speculative chain as far as possible. Meat, grain and sugar will be the first staples to be considered.

William V. McCoy and J. W. Phipps, mountaineers, of Roanoke, Va., are in jail on suspicion that they were attempting to organize mountaineers to resist the draft. It is said that the men had about 300-oath-bound followers, and planned to attack revenue agents and land owners, blow up a bank and a railway bridge and divide the spoils.

Alejandro Alvarez, secretary general of the American Institute of International Law, addressing the Conference on Foreign Relation of the United States, declared that unless Japan enters the war with all her resources the safety of the American States is threatened.

Within five hours after the nomination of Percy Haly, of Frankfurt, to be the new collector of the Seventh Kentucky internal revenue district, left the White House it was confirmed in a perfunctory manner by the Senate. As was predicted, there was none that gave voice to opposition when the Senate, in executive session, took up the Haly nomination.

Further changes in the House War Tax Bill agreed upon by the Senate Finance Committee include elimination of 5 per cent taxes on gas, electric light and telephone service and on all forms of insurance; imposition of increased taxes of 60 per cent, instead of 100 per cent, on all tobacco products, and addition of an excise tax of 1-2 cent on sugar and 3 cents on cocoa.

PICKING STRAWBERRIES

The Interior Journal's efficient Junction City correspondent, Prof. E. L. Grubbs, is in Warren county picking strawberries and hence no Junction City letter this week. Prof. Grubbs is accompanied by Mrs. J. D. Alstott and 36 young people from his home. They are at work on the farm of E. E. Ventch, five miles South of Bowling Green. The professor writes that 237 cars of 420 crates of the luscious berries have been shipped to the markets so far.

Five are known to be dead and a score injured as the result of a cyclone which swept Mineral Point, Mo. Every house in the town is said to have been leveled.

America's response to the call of liberty in the struggle of the world will hold the attention of all mankind, President Wilson said Wednesday in a Memorial day address.

The Senate Finance Committee has about completed final revision of the War Tax Bill which, it is expected, will aggregate slightly above \$1,500,000,000 when reintroduced in the Senate about the middle of next week.

Hard fighting is reported only on the Italian front, where the Austro-Hungarian line has been cut between Jambona and the head of the Gulf of Trieste and positions west of Medenizza were occupied. Artillery activity is reported on the French and Russian fronts.

LIFE INSURANCE

The Mutual Benefit has survived every great panic in America. It went through the American Civil War with credit to itself, and now offers to the American public, at this time of stress, demonstrably secure life insurance protection under a liberal contract, at minimum costs. It is an American Company operating on the mutual principle for the American people.

Limit of \$5,000 to those who have enlisted or who expect to enlist, and no extra premium the first policy year unless the insured goes outside of the United States in war service or enters naval service.

HAIL INSURANCE

Don't forget that I will be around to see you about your hail insurance on tobacco and hemp. I have paid more to the farmers of Lincoln county for hail losses than all the other agents combined.

If you have a house or barn uninsured now would be a mighty good time to insure it. You can't insure them after they burn.

In the third year of the war, France staggered under terrible burdens, has subscribed to a new loan four billions of dollars—twice our first installment. Shall we let this gallant nation, who is fighting our battle, shame us by her sacrifices?

Every rank and every occupation in France has eagerly pressed forward to aid the government with its savings. An American in France writes, "I have seen an aged street cleaner rest his broom against the counter of the bank as he clipped coupons from small government bonds bought with the savings of his toil, longside him were tired little seamstresses, women of wealth, hucksters—all doing what they could, by saving, to aid their beloved country."

Senator Beckham has at last been able to substantially reward Gen. Percy Haly to whom he owes most of his political prestige. He has had him appointed and confirmed as collector of internal revenue at Lexington, which carries with it an annual salary of \$4,500. The general's services have been mainly for the senator and he appears to take but little interest in the Democratic party except when Beckham is concerned. Gov. Stanley will take care of the former collector, Ben Marshall, who has always been a thorn in Senator Beckham's side, by appointing him clerk of the new tax commission, but the salary is less than half that he has been getting.

In resigning as secretary of the Greek legation at Washington, because his government is arraigned on the side of German barbarity and infamy, as he expresses it, Constantinidi makes a terrible accusation against that government. He says "the situation has narrowed down to a simple question of humanity and civilization against German barbarity and bestiality of a type almost beyond human belief. When a nation of people calling themselves civilized human beings begin to sink hospital ships, murder women and children and use their dead for manure it is time for all decent men to turn their faces away." Were ever charges more awful and what is worse truer?

We have become so accustomed to reading of fearful casualties that they no longer appall as they used to. Even the terrible cyclone that visited the western part of the state, took a toll of over 75 lives, wounded a large number and did untold property damage, does not carry home the fact that we are living in an awful time, with death riding in storm, in battle and disease. Hickman, Bardwell, Clinton and adjacent towns suffered terribly, the second named which is the county seat of Carlisle, being nearly wiped from the map. The storm was very severe and destructive also at Lexington but there were no casualties.

Dr. Horace Kingsbury, of the Danville Christian church, has been notified that his services as chaplain in the British army are not needed; that a long list for appointment as chaplains is ahead of him. Probably the doctor could get a job if he would do as Dr. J. W. Porter suggested in his Baccalaureate sermon here—fight in day time and pray at night.

John D. Rockefeller has put \$15,000,000 in liberty bonds, which would indicate that the Standard Oil magnate is a very patriotic man, but you can't always tell. The bonds bear 3 1/2 per cent. interest and are non-taxable and it is a very safe and excellent way to invest some of the profits from gasoline.

Frank Leslie Russell, a good lawyer, a first-class newspaper man, a clean democrat, and a clever gentleman, is a candidate for the democratic nomination for county judge of Madison. The voters of the good county could go much further and do far worse than nominate him.

The Store For Boys!

Clever snappy suits that will wear, designed especially for the American Boy—priced at \$3.00 to \$12.50.

We want to keep this store young—and we believe the best way to do it is to make the boys feel that it is their store, just as much as it is father's store. And we've got the sort of merchandise for boys that is sure to bring them back again.

Our line of Boys' Clothing can't be beat. We have them in all the new pinch and belted backs, in sizes 5 to 18 years.

McRoberts & Bailey

GENT'S FURNISHINGS STANFORD, KY.

Editor H. C. Chappell, editor of the Middlesboro Three States, has shied his castor in the ring for Representative from his district composed of the counties of Bell, Harlan, Leslie and Perry counties, and if he were a democrat, the Interior Journal would urge his election. However, if a republican has to be sent from the district, we had rather see Mr. Chappell's ambition gratified than that of any person we know of. Editor Chappell is honest enough to make the statement that he is running for the office simply because he wants it. An honest confession is good for the soul.

The act that every male citizen between the ages of 21 and 31 will be called on to perform on Tuesday, June 5 is not joining the army, but a requisite to selective draft at a later day. There is no alternative. All between those ages must register in person at their voting places or mail a certificate of registration to the registrar at home if absent. Failure to obey the proclamation of the president in this regard means a year in jail, with no alternative of fine.

The Danville Advocate says that Ralph Gilbert, of Shelbyville, will likely run for Congress in this district and the Louisville Times political editor names Judge W. E. Dowling, of Lawrenceburg, for an entry in the race. The Interior Journal picks the present incumbent, Hon. Harvey Helm, and has "fifteen dollars in its inside pocket" to say he will win.

That was a good talk Hon. P. M. McRoberts made at the Chautauqua last night, urging that Stanford continue year after year to have such wholesome entertainments as Chautauquas are. It was one of the several good things of the evening.

A Richmond plumber has taken the bankrupt law. Surely these be parlous times when a plumber can't get by.

An inspection of the books of the State Inspector and Examiner, shows that Lincoln county has citizens who draw \$8,721 in salaries from the State.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Use "Gets-It," Lift Corn Right Off

Shrivels, Loosens—and It's Gone!
"Just like taking the lid off—that's how easy you can lift a corn off your toe after it has been treated with the wonderful discovery, 'Gets-It.' Hunt the wide world over and you'll find nothing so magic, simple and easy as 'Gets-It.' You folks who

have wrapped your toes in bandages to look like bundles, who have used salves that turned your toes raw and sore, and used plasters that would shift from their place and never 'get' the corn, and who have dug and picked at your corns with knives and scissors and perhaps made them bleed—just quit these old and painful ways and try 'Gets-It' just once. You put 2 or 3 drops on, and it dries at once. Then the corn dies a painless, shriveling death. It loosens from your toe, and off it comes. 'Gets-It' is the biggest selling corn remedy in the world today. There's none other as good.
'Gets-It' is sold by druggists everywhere, 25c a bottle, or sent on receipt of price, by E. Lawrence & Co., Chicago, Ill.

How Much Money Do You Save?

For the young man who thinks it is a manly thing to spend money freely, and who sneers at the thrifty person as "stingy" and "mean" here are a few facts, as observed by a Kansas City paper, that he may digest with profit:

Sixty-six of every one hundred, dying in this country have absolutely no estate, they are dying penniless. Of the remaining 34 persons, 25 never accumulate more than \$1,300 in their life time and die with less than that, only nine persons in one hundred have more than \$5,000 when they die. Only two per cent. of the whole population may be classed as "well-to-do." The other ninety eight per cent. of the people of this country have only their wages from day to day, or are dependent upon relatives or upon charity. Of every 100 persons who reach the age of sixty-five, no fewer than ninety-seven are partly or wholly dependent upon relatives, friends or charity for food, clothing and shelter.

These figures are not mere estimates. They are taken from the Government census statistics and are arranged and given out by the President of the American Society for Thrift, a society organized by some representative business men, who see a real danger to our nation in the American tendency to wastefulness. It will be seen from these figures that thrift is a virtue that needs to be taught to young people. The boy who squanders his youth and his money in riotous living, expecting chance or luck to bring him a fortune later in life, should scan these figures and learn that he has just nine chances in one hundred to ever accumulate \$5,000 or more, and if he is to be one of the fortunate ones, he must begin to save early. How much school boys squander foolishly, that they might save. A good plan is to keep an expense account, putting down the amount of every cent spent then placing beside it the amount earned.

Then the boy sees how much greater are his expenses than his earnings. It is then that he realizes how much he squanders for unnecessary things. The time to begin all training is in youth, so the time to begin to save, is when the first money is earned.

ALWAYS RELIABLE

Stanford Experiences Going Back Nearly Five Years

Kidney weakness can be cured. But what caused it once will cause it again.

Here's a Stanford man who has had several attacks. Several times in nearly five years Mr. Spoonamore has used Doan's Kidney Pills.

He says that Doan's have never failed him. Nearly five years ago Mr. Spoonamore publicly endorsed Doan's.

He now confirms his statement. What better proof of merit?

Proved by years of experience. Told by Stanford people. This is convincing testimony:

J. T. Spoonamore, Whitley Ave., Stanford, says: "Four years ago I was run down with my back. I could not stoop or do any lifting to amount to anything. The kidney secretions were too frequent in passage and caused me a great deal of annoyance. I tried about a dozen different kinds of medicines but did not get any better. I used Doan's Kidney Pills finally and by the time I had taken two boxes of this medicine the trouble was removed." (Statement given December 29, 1911).

USES DOAN'S AGAIN
On November 13, 1916 Mr. Spoonamore said: "I am always glad to recommend Doan's Kidney Pills. They always helped me when I have need to use a kidney medicine." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Spoonamore has twice recommended. Foster-McIlburn Co., Props., Buffalo, N. Y. 41-1

Attorney General Gregory instructed United States Attorneys and Marshals throughout the country to use their utmost efforts to arrest and prosecute all persons responsible for the agitation which has manifested itself in localities from New England to Texas against the registration June 5 of men subject to selective draft.

ASK THESE TANLAC USERS

Many persons think testimonials for advertised medicines are fakes. Tanlac is a tonic too well known to Kentuckians to need any fake testimonials. Writers of Tanlac's advertising do not quote people living in other states. They give you the names and addresses of your own friends, neighbors and acquaintances right here in the good old Blue Grass State. This advertisement hasn't a word to say for Tanlac. All it does is give you a list of people right here in this state, to whom you may write for particulars about Tanlac. Maybe you know some of these:

MIDDLEBURG

The late frost played havoc with early gardens in this vicinity and they had to be replanted.

The cold weather has caused much of the young apples to fall off, so say those who have examined the trees.

Miss Ruby Lee and Mrs. R. M. Fogle visited Mrs. Fogle's father and mother, Mr. and Mrs. J. S. Murphy at McKinney Friday.

A good shower of rain would be a welcome visitor here just now. The ground is very dry, and corn is not coming up as well as farmers would like.

Charlie Carter, son of A. W. Carter at Yosemite and Bunt Davenport went to Lexington Saturday to enlist in the army. They are the first in this section to volunteer their services.

Capt. J. Quincy Rowland came down from Moreland Saturday and remained over Sunday. Capt. Rowland thinks Moreland is the best town on the map or destined to become so.

Rev. C. C. Moore returned Thursday from Charleston, S. C., where he has been engaged in Sunday School work. He came as far as Barbourville in an automobile, but on reaching that town his machine broke down and he had to take to the railroad.

It is said that oil operations will begin on Indian creek soon. Machinery for boring is on the way and work will begin in a few days. W. T. Dye has been taking leases for the Sun Oil Co. of New Jersey, for several weeks and has secured quite a large territory.

It is the desire of the farmers here that any candidate riding over the country during the busy season of the summer, will be taken up and sent to the front at once. And the playing of base ball and like sports are forbidden also. This is a time for work and serious thought, they say, and idleness and frivolity will not be tolerated.

Mrs. A. R. Scott, who was Miss Mittie Estes before her marriage, writes from her home at Sedalia, Mo., that people there are doing everything possible to help Uncle Sam whip the Germans. A number of young men have enlisted in the army and the people are cultivating every available space of ground in potatoes and other crops to feed those who go to the front. She says her pastor paid \$1 per bushel for seed potatoes to plant two vacant lots that belong to the parsonage.

COMPLICATES THE RACE
A newcomer in the Republican legislative race in the Laurel-Rockcastle district, which had already grown exceedingly warm, is G. A. Settle, a well-known party man of Laurel county. The contest is now five-handed, and it is said that the entry of Mr. Settle very much complicates the race. The other candidates for the Republican nomination for Representative, all of whom hail from Laurel county, are John R. Floyd, G. H. Vandewater, Fred Cornelison and Col. R. L. Ewell, who although 85 years of age, is making an active canvass.

THE BAPTIST CONVENTION

More than 3,000,000 Baptists of the South were represented by 936 messengers at the Southern Baptist Convention at New Orleans. The Association elected Dr. J. B. Gambrell, of Texas, to be its president and re-elected other officers. The Convention goes to Hot Springs, Ark., in 1918. Report of foreign board showed that the debt of \$180,000 had been paid. Amount of money raised and expended, \$941,970.48. Number churches on foreign fields, 458, with a membership of 47,161. These congregations contributed \$132,371. There are 307 foreign missionaries and 809 native workers who conducted 474 schools with an enrollment of 12,930. The 15 medical missions treated 67,556 patients. Greater work is mapped out for the year ending May 1918. Home mission report showed an aggregate amount collected and expended of \$417,384.11, and a total of 60,202 added to the churches. 216 churches and 563 Sunday schools were organized and 431 church buildings were erected. Sunday School board report showed net resources \$678,667.09. This was a great convention.

ABOUT ARMY REGISTRATION

There is only one day for registration for army service, June 5, 1917.

Every male resident of the United States who has reached his 21st and has not reached his 31st birthday must register on the day set, June 5, 1917. The only exceptions are officers and enlisted men of the regular army, the navy, the marine corps, and the national guard and naval militia while in the service of the United States, and officers in the officers' reserve corps and enlisted men in the enlisted reserve corps while in active service.

Registration is distinct from Draft. No matter what just claim you have for exemption, you must register. Registration is a public duty. For those not responsible to the sense of this duty, the penalty of imprisonment, not fine, is provided in the Draft Act.

Those who through sickness shall be unable to register should cause a representative to apply to the county or city clerk for a copy of the registration card. The clerk will give instructions as to how this card should be filled out. The card should then be mailed by the sick person or delivered by agent, to the registrar of his voting precinct. The sick person will enclose a self addressed stamped envelope for the return to him of his registration certificate.

Any person who expects to be absent from his voting precinct on Registration Day should apply as soon as practicable for a registration card to the county clerk of the county where he may be stopping, or if he is in a city of over 30,000, to the city clerk. The clerk will record the answers on the card and turn it over to the absentee. The absentee should mail this card to the registrar of his home voting precinct so that it will reach that official by Registration Day. A self-addressed stamped envelope should be enclosed with the card to insure the return to the absentee of a registration certificate.

Registration booths will be open from 7 A. M. to 9 P. M. on Registration Day, June 5, 1917.

SWEARING ON THE BIBLE

The method of swearing by the Bible came into use at a very early period, practically with the establishment of courts of law in Christian countries. It was the ordinary method of swearing when America was settled by Europeans and was naturally adopted here. Oaths were common before the Christian era, and any form may be used that conforms to the religious belief of the person to be sworn. Hebrews are often sworn on the Pentateuch, keeping on their hats, and their oaths end with the words, "So help me, Jehovah." A Mohammedan is sworn on the Koran.

Fayette county hopes to open an up-to-date tuberculosis sanatorium July 1 and is making strenuous efforts to raise the additional \$50,000 necessary to complete the institution as planned. The fiscal court appropriated all in its power but private subscriptions must be relied upon to raise the balance. Teams are at work now in Lexington and are meeting with good success in raising the money, but in order to make assurance doubly sure they hope that the people of the state, in view of the fact that additions will be made to take care of the soldiers being mobilized there, in which the entire state is interested, who have money and the milk of human kindness in their make-up, will aid in the effort to raise funds. Summer Colds Weaken

They are even more dangerous than winter colds, for they hang on so long that they become chronic catarrh. Heat and dust aggravate them, cause the infected surface to spread, and fill the body with systemic catarrh. Neglect costs health and energy.

PERUNA EXPELS CATARRH

It does more—it builds up the weakened system, regulates the digestion, removes the inflammation, overcomes the poisons of catarrh, and invigorates all over. Forty-four years of success proves its great value, of which thousands gladly testify.

NEW ANGLE IN RACE

The hented Republican campaign in Rockcastle county developed a new angle when J. N. Griffin "cut in" the race for the nomination for County Judge against Judge G. M. The peps have also been shifted in the Sheriff's race, Mose McNew having dropped out of the running and been

JUNIOR CLASS

(From The Lincolnian.)

Only a class with sufficient grace, leaving school after the yearly race. Taking much of knowledge and fame to show how well it has played the game. But glad in their hearts, its members rejoice. To know they are through with figures and voice.

Only a class of twenty and four. One of ten million such or more. Plodding along in the daily strife. Bearing the wrongs of all school life. Without any signs of envy or hate. All for the sake of the joys that await.

Only a class faithful and true. Loyal laboring all the way through. Telling, striving from day today. Bearing whatever its teachers say.

Silent whenever they harshly condemn. And bearing it all for the love of them.

Only a class but it gives its all. To smoothe the way for the Sophs so small. Doing with courage stern and fit. The deeds that the Seniors did for it. This is the line for it I pen. Only a class but the best of them. —Annie VanArsdale Craig.

NEWSPAPERS AND THE WAR

It is announced that the Senate will reject the unwise and confiscatory postal rates for magazines and newspapers as proposed by the House but may substitute in lieu thereof a 2 or, perhaps, a 5 per cent. tax on all "advertising collections" of the newspapers.

This is special taxation of the most onerous kind. It would be just as fair, or as unfair, to provide that merchants would have to pay to the government 2 or 5 per cent. of all their collections upon merchandise sold. As a matter of fact, the proposed newspaper law is more unfair, for the merchant could add the tax to the consumer's bill, and the newspaper cannot do so.

In this connection it is proper that not only the government but the public should take cognizance of the vast amount of free publicity that is being given by the newspapers for the advancement of the war.

Let us take the military registration on June 5 next as an illustration. Without the aid of the newspapers that registration would be a farce. The newspapers, in the first place, carry to the public the facts that such a registration is to take place. Later the newspapers print the location of the registration places, notify the registration officers of their appointments and their duties. All of this is being done without charge to the government. It is a service that the government could not do without.

This is but one of many similar services. We do not minimize the work that is being freely done by hundreds of our business men to aid the government in the conduct of the war, but we are convinced that no single industry in the country is doing as much without pay as is the newspaper press.—Louisville Post.

The sale of the Red Cross Seals in the United States passed the million dollar mark last year and at present more than 75 per cent. of the work of anti-tuberculosis organizations of the country are supported by the proceeds. The money from such sales will in a large measure be diverted now for Red Cross army nurses and other instrumentalities will have to be used to raise funds. The Kentucky Board of Tuberculosis Commissioners is handicapped to considerable degree by limited resources but is doing its best regardless of it to educate the people to the fact that the disease can be prevented and a great many cases cured if taken in time and the treatment, shown by experience and results, is fully followed. Write to Dr. W. L. Heizer, executive secretary at Frankfort, for fuller information, if interested.

FOUR WEEKS IN HOSPITAL

No Relief—Mrs. Brown Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand it any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains."

A friend who is a nurse asked me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug-store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."—Mrs. W. C. BROWN, 2801 W. 12th St., Cleveland, Ohio.

The proposition to increase postage rate on newspapers is another strike at the life of the newspaper business. It will probably cause the suspension of many papers. Everything entering into the making of newspapers has doubled in price during the past two years, yet newspapers are exacting no great increases from their patrons. This is not in line with laws of business. When the grocer pays a cent more a pound for sugar he tacks the extra cent on to the retail price and the consumer pays it. But in the case of the local newspapers, they have absorbed the extra cost and their patrons get the benefit of it—yet of all persons the newspaper man is probably less able to stand the increase than any other business man.

It takes a man to hold down a good job, but no job can hold down a good man.

Farmers don't you think right now is the best time to raise draft horses? The price was never higher than now, and our supply of work horses is at the lowest point it has been for years.

There are not more than half as many brood mares in the county now as there were five years ago. You can see that we are facing a horse famine. What are you going to do about it? Autos and auto-trucks are all right but you can't farm with them. You can't raise colts from your mules. It looks like the most sensible and business-like thing to do is to raise some good draft colts before your old brood mares are gone.

I offer for public service the champion draft stallion, Voltaire. He has proven himself to be one of the best breeders this county has ever known. He will make the season at my place on the Danville pike, one mile from Stanford at \$15 to insure a living colt; season due when colt is foaled or mare parted with. Will not be responsible for accidents.

KENTUCKY GENTLEMAN 5167 By Chester Pennine 3184 by Rex Peavine 1796 by Rex McDonald. First dam Flora Carter 8419 by Red Squirrel 53 by Black Squirrel.

I don't suppose there is a better bred horse in Kentucky than Kentucky Gentleman. He has been one of the most successful horses in the show ring that this county has produced in years. He is just the right size for a saddle horse and his first colts which are four years old now are showing the saddle gaits nicely. The auto has put the light driving tent, but you don't have any trouble in selling a saddle horse.

I am going to offer the services of this great horse at the extremely low price of \$15 to insure. I am giving you for \$15 what most men would charge from \$25 to \$40 for. Do you appreciate it? If so send your best mares to the court of Kentucky Gentleman and let him get you a nice colt.

At \$5 to insure a living calf. This is one of the best Jersey bulls in the country and I am standing him at a very low figure. See this stock before you breed. Government agents throughout the country have been intrusted to keep close watch upon meetings at which there is likely to be agitation against the draft registration and to arrest speakers who encourage violations of the war army act.

Henry Hancock, 19 years old, of Columbus, great-grandson of John Hancock, first signer of the Declaration of Independence, has enlisted in the regular army at the Louisville recruiting station.

ALMONT DARE

Almont Dare, 3228, is a rich red bay stallion; 16 hands high with good bone and fine style. Is extremely fast both under saddle and in harness. He is a full brother to Toxy Dare that won the championship for saddle bred brood mares at the Kentucky State fair in 1914, defeating Edna May and others and to Nettie Dare that sold for \$3,600 and others at \$1,500. He is the best one of the lot. His colts have frequently defeated the colts of sires standing as high as \$75. Have sold his colts myself for \$500. Others claim offers of \$1,000. They also are the very best to use at home, being large, fine, game, durable and kind.

Will make the season at \$10 to insure live colt.

Bryan Breckinridge, my registered black jack, 16 hands with extremely large bone will stand for mares at \$10 for mare mules and \$8 for horse mule. Will also breed jennets any month in year at \$10 to insure colt. Have sold his colts for \$120 at

weaning time. Grass furnished at \$2 per month and all stock intrusted to me will receive my personal attention but will not be responsible for accidents. Season on the above are due when colt is foaled or mare bred to other stock or stock parted with. All the above will make the season at my place, two and a half miles west of Hustonville, on Hustonville and Liberty pike. Pedigrees furnished upon request. S. T. POWELL, Hustonville, Ky.

DON VARRICK

Will make the season of 1917 at my stable 1-1 mile from Crab Orchard, on the Singleton place, at \$10 to insure a living colt. Don Varrick is a beautiful chestnut, 16 1-2 hands; weighs 1,400 pounds, is compactly built and has plenty bone and finish. His colts show for themselves.

Will also stand at the same time and place my saddle stallion BLACK PRINCE By Kentucky Peavine, out of a mare by Old Preston. He is a coming four-year-old, as black as a crow and a good one. You should see him. He will stand at \$10 to insure.

TWO GREAT MULE JACKS

Will also stand two great mule jacks at \$10 to insure. One the well-known Huff Duddler jack and the other, Jesse Fox, a fine fellow, 5 years old and a good breeder. His colts show up nicely. See them both before you breed your mares.

Will stand a fine registered Short-horn Bull at \$2 to insure. Money due in all cases when animal is bred elsewhere or parted with.

Foreign demand has taken over one million horses from this country, and we may expect better prices for our horses in the future. Our advice to many owners is to breed their mares and to breed them to stallions of merit and proven worth as sires. Bleucher is just the type to produce the colts that will supply the demand. His colts have proven fine, with nice head and neck and plenty of bone and conformation.

Monte Fox, of Danville, was here the later part of last week and went out to see the fancy herd of fat cattle that J. B. Honaker is feeding for market and is using the new feed Purenna, which is proving to be a great feed to produce fat.

Some one threw out poison here Sunday morning and a couple of harmless dogs were the victims of the cowardly attempt. V. R. Morse's rat terrier "Spot" received a deadly dose and Jerry Adams' bird dog was saved by a heavy drenching of lard.

It is dangerous to throw out poison where so many small children are playing. A close inspection was given and it may lead to who did the deed. A hot clue is now in progress for the guilty party. It is a heavy penalty to throw out poison.

H. V. Thompson, of Winchester, sold 60 head of heavy cattle in Cincinnati, at \$11.50.

Ed Peyton sold to Perk Hamilton six lambs at \$14.41 each, or \$86.46. If there is man in the county who can beat this record let him talk through these columns.

F. F. Sandidge, of the Moreland section, has sold to Fox & McDowell, of Danville, his lambs for June 20th delivery at 14c and his ewes at \$10.

D. O. Lewis, of the same section, sold to same parties his lambs at same price and the W. D. Hanson estate sold a bunch of lambs to the same firm at 15c.

At the fourteenth semi-annual sale of Island-bred and imported Jersey cattle at the Burr Oak Farm, in Shelby county Monday, ninety-five head were sold for \$38,570, an average of \$406. The top price, \$2,525, was paid by Walter Barnes, of Youngstown, Ohio, for Golden Fern's Golden Claire, a five-year-old cow by Golden Fern's Noble dam Eminent's Claire II.

THE NEGRO IN THE WAR

This paper has published more than one complaint from patriotic negroes that the preparations for raising an army to fight Germany ignore their own race.

Recent news from Washington will remove the occasion for such a complaint.

According to the announced plans provision is to be made for training 1,250 negroes as officers of colored regiments, which would indicate the contemplated raising of from 30,000 to 40,000 black troops as a starter.

The news is welcome. There are no better soldiers than the negroes and they should be given every opportunity to fight for the flag which means no more for any people on earth than for them.—Courier-Journal.
